## CURRICULUM VITAE (COURSE OF LIFE)

### PART 4

#### TO RESTORE ORDER FROM CHAOS

On this 6<sup>th</sup> day of April 2020 amidst the COVIC-19 world pandemic, economic, medical, social and political chaos abounds. Social distancing, staying at home, wearing masks and washing our hands. April 5<sup>th</sup> ended the three day conjunction of Jupiter and Pluto which happens every thirteen years. Jupiter is the expansive planet and rules the higher mind, religion, philosophy, and spirituality. Pluto is the planet that brings death and regeneration. There will be three conjunctions of Jupiter to Pluto the last ending on November 13, 2020. By the time we get to December 21, 2020 and the conjunction of Jupiter and Saturn we should be out of the chaos and into the calm. Jupiter and Saturn were conjunct when Jesus was born approximately 2000 years ago.

“Order- a methodical or harmonious arrangement.”

“Chaos-utter confusion or dis-order.”

*The Reappearance of the Christ*-Alice Bailey: 1948.“Right down the ages, in many world cycles and in many countries, great points of tension have occurred that have been characterized by a hopeful sense of expectancy. Someone is expected and *his coming* is anticipated. Always in the past, it has been the religious teachers of the period who have fostered and proclaimed this expectancy and the time has always been one of **chaos** and difficulty; of a climaxing point at the close of civilization or culture and when the resources of the old religions have seemed inadequate to meet man’s difficulties as to solve their problems. The REAPPEARANCE OF THE CHRIST (Messiah) and the prevalent expectancy when the times are ripe.”

*The Lost Symbol*-Dan Brown pp 56, 104. (2009). “The One-ness of 9-11, of this shared experience, the coalescing of millions of minds had affected the randomizing function of

these machines, organizing their outposts and **BRINGING ORDER FROM CHAOS...**The **ORDER FROM CHAOS** was one of the great masonic axioms. Ordo ab chao.”

## **VISION**

“The act or power of seeing; unusual foresight; vivid imaginative conception.”

Thirty six years ago (as of 2010) I had a vision into the future. Luckily I didn't know how far into the future it would be before my dreams would come true because I would have been too discouraged to continue knowing I would have to wait so long for something to materialize. And here it is thirty-six years later (now 47 years later since 1973) and I am still patiently but proactively waiting for my destiny and mission to become fulfilled.

“The **visionary** brings mysticism and imagination and challenges the soul to move beyond the physical plane into the realm of what might be. The **visionary** can pierce the veil, returning enlightened to the physical world. The challenge is to avoid getting lost within the illusion of the alternate reality.” Reference might be *Magical Passes*.

## DESTINY

“Fate; lot or fortune; the predetermined course of events.”

As the “chosen Messiah,” the “elect of God,” the “anointed one,” Jesus’ destiny had been cast and his fate sealed. This is not the case for everyone. For nearly everyone the future is flexible and changeable. No thing, i.e. nothing is 100% cast in concrete. Even when the future is knowable it can be changed. Jesus knew his future and he could have easily changed it but he knew the course of history would change as well. Jesus’ fate, you could say, was predetermined, however, God gives us freedom of choice. For Jesus, his will was surrendered to God and his choices were severely limited. It is the same with Bruce. He has surrendered his freedom\*\* to choose an alternate future. His script has already been written and he has, again, chosen to follow the script.”

\*\* By doing so, i.e. doing God’s will, he exercises the greatest freedom.

“When clouds rise in the sky, it is a sign that it will rain. There is nothing to do but wait until the rain falls. It is the same in life when **destiny** is at work. We should not worry and seek to shape the future by interfering in things before the time is ripe.” *I Ching*-Wilhelm/Baynes. *Hexagram #5. Waiting*.

## **BRUCE-PRESENT LIFE-EFFECT**

Eckart Tolle: “Our identity which is encoded as our own energy field as the cell memory of our cosmic and genetic DNA.”

Dr. Brian Weiss: “It is simply another **repetition** or coming together of long **pre-existing patterns.**”

Dr. Walter Semkiw: “The hallmark of a true reincarnation case where **the same soul creates a physical body in two or more incarnations** the following criteria must remain **REMARKABLY CONSISTENT.**”

Wynn Free: page 68 *The Reincarnation of Edgar Cayce*. “As a human soul (actual individuality) reincarnates from lifetime to lifetime, its torsion wave “**energetic signature**” will alter the DNA inherited from the parents. This creates similarities in facial appearance, personality, and body characteristics...and facial features can be passed down from one lifetime to another....and the commonly shared soul would carry the uniquely coded torsion wave that ultimately programs our DNA.”

“In describing scientifically the cosmic workings of reincarnation, two Russian scientists, Peter Gariaev and Vladimir P. Poponin demonstrate that DNA has the unique property of attracting light (photons) into itself, causing the light to spiral through the molecule instead of traveling in a straight line path. Even more importantly, the research of Yu V. Dzang Kangeng showed that the spiraling energy forming the DNA could be transferred from one organism to another...Ibid page 69

...An understanding of this model also allows us to grasp how certain metaphysical systems may work. For example, this could explain how the planet’s astrological positions can actually impact an entity. Each planet is a sub-logos of the galaxy with its own unique intelligent patternings and archetypes as a conscious entity...Ibid

As an entity leaves the protective shell of its mother’s energy field in her womb through the birthing process, **it receives an imprint of that exact planetary configuration** at the moment of birth into its DNA/energy body. Thus, a chain of causality **links each of us**, via our DNA, **to the consciousness of the entire cosmos...**Ibid

Our souls time our births so as to **incarnate during a planetary configuration** that is most auspicious for our body/mind/spirit development, in relation to the lessons we then choose to learn/master in that incarnation.” Ibid

This is exactly what happened to me. My soul timed my birth for April 2, 1948 at 8:38 AM in Chicago, Illinois when the Sun, Moon, planets and the fixed stars and constellations had a vibratory frequency that was encoded with the memories of all my lifetimes, and most particularly, *My Past Life As Jesus*. The Sun, Moon, planets and fixed stars were at a perfect “planetary configuration” that matched the **soul pattern** that incarnated as Jesus and then as Bruce. The “*energy signature*” remaining exactly the same from past life to present life.

*Sun in the 11<sup>th</sup> House-* “**Destiny** will come to be fulfilled...”

Aspect unknown- “**Destiny** requires..”

*Mercury in the 10<sup>th</sup> House-* “**Destiny** will require a show of eloquence.”

*Sun trine Mars-* “Secure in his own **destiny.**”

*Pluto in the 3<sup>rd</sup> House-* “There is psychological torture when truth seems to smile sardonically on your perplexity.”

Aspect unknown- “**Destiny.**”

## MISSION

“A task to be performed.”

Being on a **mission** is very goal directed but in a more passionate way. There is a saying; “Like a man on a **mission.**” Something quite specific and very definite needs to be accomplished. For Jesus, fulfilling all the prophecies in the manner they were predicted to happen and exactly when they were predicted to happen was almost a “**mission impossible.**” The **mission** for Bruce has the same underlying objective. Bring about transcendence and transformation for humanity. This is the **mission.**

*Astrology And Past Lives-* Mary Devlin. “The incarnating entity chooses the time most astrologically advantageous for its **mission** on earth.” To ascertain her findings she assembled four hundred astrological charts that included the re-incarnational histories derived from past life regression therapy through hypnosis.

Devlin maintains that a past life birth chart is derived from two distinct methods which can be combined together.

The first method can only be possible if the past incarnation is relatively recent whereby the birth date has been recorded in some record which still exists and can be verified.

The second way is simply to ask the person under hypnosis to disclose when and where they were born in the most immediate past life. The soul will know exactly and precisely the when and the where. She says: “The birth data is then run through a computer. The resulting natal-chart features are analyzed carefully to **make sure they fit the life and personality**(as revealed through the regression), **of the prior incarnation.** About one half of our cases involve subjects with one past life birth chart: The rest have at least two.

Astrologer Devlin studied the **PATTERNS** in the birth charts and was able to draw her conclusions substantiating and identifying a particular past life incarnation.”

## JESUS-PAST LIFE-CAUSE

*Jesus CEO* page 128. “...to accomplish the great **mission** of his life Jesus did whatever needed to be done.”

*Passover Plot* page unknown. “He had to prepare for the most dangerous part of his **mission.**”

*Jesus CEO* page 14. “Jesus knew his **mission** statement.”

*Jesus CEO* page 25. “What he saw his **mission** to be.”

Either *Jesus CEO* or *Passover Plot*. “Jesus had to visualize the **mission** of Messiah.”

Reference unknown. “The blueprint of Messiah’s **mission.**”

*Passover Plot* page 66. “The scriptures disclosed to him the character of his **mission.**”

*Jesus CEO*. Page unknown. “Leaders must have strength to carry out their **mission.**”

## BRUCE-PRESENT LIFE-EFFECT

*Sun in the 11<sup>th</sup> House*- “Bruce’s foremost interest is understanding his underlying self and its **mission** on earth.”

*Sun in the 11<sup>th</sup> House*- “Bruce has a **mission** to accomplish.”

Acts 1:11: “This same Jesus will come.”

*Life After Death-The Burden of Proof*. Dr. Deepak Chopra. “Reincarnation occurs at a

higher level than where one left off and the specific calculations are made by the universe itself, not just every lifetime, but every event in nature.”

General George Patton: “So as through a glass and darkly the age long strife I see, where I fought in many guises, many names, but always me.”

## MYSTICAL

“Of or characterized by esoteric or other worldly practices or content; of hidden character or significance; of mystics or mysticism; **a person who claims insight into mysteries transcending ordinary human knowledge**; spiritually symbolic; an immediate spiritual intuition of truths, or of a direct, intimate union of the soul with God through contemplation or spiritual ecstasy; mysterious.”

Bruce is not just mystical or a mystic. He is “a teacher of **mystic** matters.”

*Essential Judaism*-George Robinson page 192 (2000). “There is even, among the Jewish mystics of that period (2<sup>nd</sup> century B.C.E.) a notion of reincarnation...There clearly is a consistent strain of thought in Judaism that posits the soul as immortal and one part of an integrated unit of mind, body, soul.”

*Sightings-Extraordinary Encounters With Ordinary Birds* by Sam Keon.

*The Third Jesus*-2008. “The hardest thing to see is what is hidden in plain sight. After twenty centuries of doctrine and dogma we have nearly lost sight of the Jesus who was a **wandering teacher of mystical truths.**”

Reverend Patricia E. de Jong, senior minister, *First Congregational Church of Berkely, California. The Third Jesus* 2008. “A testimony to the inexhaustibility of Jesus; wise man, **social reformer**, advocate for the poor, and for some, a Savior...the **Mystical** Jesus at one with our deepest consciousness.”

## JESUS-PAST LIFE-CAUSE

*Sun in Pisces-* “**Mystical.**”

*Passover Plot* page 66. “**Mystical** Jewish piety.”

*The Third Jesus* page 1. “What Jesus actually **taught** is much more radical and at the same time **mystical.**”

*The Third Jesus* page 120. “The **mystical** Jesus was describing his essence and our own at the same time.”

*The Third Jesus* page 53. “His vision radical and **mystical.**”

*The Third Jesus* page 8. “*He was the keeper of deep **mysteries.***”

*The Third Jesus* page 2. “Jesus wanted to inspire a world reborn in God. This vision is breathtaking in its ambition. It points us toward a **mystical** realm, the only place where human nature can radically change.”

*Exploring The Levels of Creation-* Sylvia Browne 2006 pages 122,123. “Jesus was a true **mystical** traveler..and **mystical** travelers may feel somewhat reluctant after they get down to earth because their lives are often up for grabs...they charted this life for themselves....Being a **mystical** traveler takes a great commitment on that individual’s part. Please note that you are either a **mystical** traveler or not-this is something that’s imprinted on a soul and can’t be requested while you are on the earth plane.”

## **BRUCE-PRESENT LIFE-EFFECT**

*Sun in Pisces-* “**Mystical.**”

*Neptune in the 5<sup>th</sup> House-* “Teacher of **mystic** matters.” How could I have been born a “teacher of **mystic** matters” straight outta the womb?

*Venus in the 12<sup>th</sup> House-* “You love **mystery.**” “Jesus was the keeper of deep **mysteries.**” *Pluto in the 3<sup>rd</sup> House-* “..being **responsible for secret and exclusive information** pertaining to matters of great importance...”

## MAGICIAN

“The use of techniques such as incantation to exert alleged control over the **supernatural** or the forces of nature; an **extraordinary influence or power**; mysteriously enchanting.”

*Uranus conjunct the Ascendant*- “**Able to tap a super conscious level of knowledge.**”

*Sun trine Pluto*- “Qualified to gain positions of **power** and authority with **tremendous power** and will.”

*Saturn sextile Neptune*- “Useful as a guide and advisor to individuals in **power.**”

*Pluto in the 3<sup>rd</sup> House*- “**Developed will power** and aided by an inspiration of unknown origin.”

*Mars conjunct Pluto*- “Tremendous energy and **power** in actions and great **power** of regeneration...able to tap the energy of universal **power.**”

*Magical Passes* page 27. “Believe me, said Don Juan, ‘We are **magical** creatures of awareness...we human beings are **magical** beings.’”

*Jesus The **Magician**: Charlatan or Son of God*: Morton Smith 1978. Page 68. Morton Smith argues in his book that the historical Jesus was a **magician..**”

*NBC News*: Earliest reference describes Christ as a ‘**magician.**’ by Jennifer Viegas/Discovery Channel. “A team of scientists led by renowned French marine archeologist Franck Goddio recently announced that they have found a bowl, dating to between the late 2<sup>nd</sup> century B.C.(e) and the early century A.D., that is engraved with what they believe could be the world’s first known reference to Christ.

If the word “Christ” refers to the *Biblical Jesus Christ*, as is speculated, then the discovery may provide evidence that Christianity and paganism at times intertwined in the ancient world.

The full engraving on the bowl reads, ‘*DIA CHRSTOU O GOISTAIS.*’ which has been interpreted by the excavation team to mean either, ‘by Christ the **magician**’ or, ‘the **magician** by Christ.’

‘It could very well be a reference to *Jesus Christ*, in that he was once the primary exponent of white **magic**,’ Goddio, co-founder of the *Oxford Center of Maritime Archeology*, said.’”

*Matthew 2:1-12*. “Where is he who has been born king of the Jews? For we have seen his star \*\* in the East, and have come to worship him.”

\*\*The conjunction of Jupiter, Saturn and possibly Mars..

*Associated Press* by Tom Coyne (2013)- “Theoretical astrophysicist, Grant Matthews, after two years of research has concluded the heavenly sign around the time of the birth of Jesus Christ was **an unusual alignment of the planets...**”

German astronomer Johannes Kepler proposed in 1604 that **the star was a conjunction of Mars, Saturn and Jupiter in 7 B.C.**

Grant Matthews believes the Christmas star is most likely an alignment of the planets on February 20, 6 B.C.(e) when **Mars, Saturn and Jupiter aligned in the constellation of Pisces**. Matthews has access to NASA data bases to ascertain this information.

So, the three **Magi(cians)** were astrologers and **magicians** from Persia (modern day Iran) who were versed in the Old Testament, the prophecies and were aware of the conjunction of Saturn, Jupiter and Mars. They also knew the mathematics of the prophecies and were able to calculate exactly when and where the “King of the Jews” would be born.

Matthews says: “I think it would take more of a(n) historical reference more than astrophysics. I think this is as good as you can do for now.”

December 21, **2020=19**. The winter solstice. Jupiter and Saturn are conjunct 0\* in Capricorn(sidereal). This is a day of the Alpha and the Omega; the beginning and the ending. “It’s all good!!”

## **BRUCE-PRESENT LIFE-EFFECT**

*Saturn conjunct Pluto*- “The aspect of the **magician** gives Bruce the ability to channel spiritual energy through structured systems. This astrological combination gives the ability to bring about **global transformation.**” That would be pretty **magical** wouldn’t it? To have an ENLIGHTENED SOCIETY FOR **GLOBAL TRANSFORMATION?**

## FOCUS

“A central point, as of attention or activity; to concentrate; to become focused.”

In a world where it seems important to be able to multi-task, I do several things at once. The pursuit of God consciousness should not be one of them. God needs our undivided attention. We need to train our minds and our thoughts to **focus** its wandering nature on God/Love. We need to lock our sights onto doing God’s will whatever that may be for you. When your work day is done begin your work with God. We all need to stop dreaming and wake up! We can all multi-task. Keeping our sights on God and whatever else we are doing here on earth.

*The Lost Symbol* page 56. Dan Brown (2009). “**Focused** thought” could affect literally anything; human **thought** can literally **transform the physical world.**”

*Saturn conjunct Pluto*- “Bruce’s **ideas** and projects will have **a transforming effect upon the world..**” Aren’t ideas thoughts?

If you have not already read it I encourage you to read “*Reversing Global Warming*” at [www.TheCenterForWorldPeace.Love](http://www.TheCenterForWorldPeace.Love). I wrote this in Federal Prison in 2009. It is all about “**focused** thought” and transforming the world and the planet through **focused** thought.

## JESUS-PAST LIFE-CAUSE

*Passover Plot* page 94. “Jesus brought his **ideas** into a sharper and singular **focus.**”

*Passover Plot* page 131. “The prophecies’ requirements shaped his every move and engaged his constant vigilance.”

## BRUCE-PRESENT LIFE-EFFECT

*Sun in the 11<sup>th</sup> House-* “Enfolded by a single desire.”

*Saturn sextile Neptune-* “(Bruce is) preoccupied with social causes through which he is trying to make a spiritual contribution.”

## ORGANIZATION

“The act or process of **organizing**; the state or manner of being **organized**; to systematize; order.”

Any good business plan demands **organization**. The same is true for our spiritual plan. **The universe is ordered and we must be organized and ordered**. Self transformation demands **organization**.

## JESUS-PAST LIFE-CAUSE

*Passover Plot* page 106. “The most careful **organization...**”

*Passover Plot* page unknown. “**Organized.**”

*Passover Plot* page 46. “The prophetic requirements **organized** to show a progressive program of events.”

## BRUCE-PRESENT LIFE-EFFECT

*Saturn sextile Neptune.* “Efficiency and **organization.**”

Aspect unknown. “Efficient **organization.**”

Sun trine Saturn- “**Organizing** ability.”

## PENETRATING

“Acute; discerning; to comprehend; to affect deeply.”

Being able to **penetrate** the veil of the illusion of the material world leads to the **comprehending** of the nature of the universe. **Penetrating** the veil is one of the first steps on the spiritual path towards higher consciousness, enlightenment, transcendence and self transformation. To **penetrate** the veil we must **penetrate** our own egoistic and material selves (self). This penetration will take us from our lower carnal materialistic self to our higher spiritual self.

## JESUS-PAST LIFE-CAUSE

*Passover Plot* page 62. “Very little escaped Jesus’ **penetrating** notice.”

*The Lost Jesus Scroll* page 90. “Jesus viewed people with deep **penetration.**”

## BRUCE-PRESENT LIFE-EFFECT

*Pluto in the 3<sup>rd</sup> House-* “Power of **penetration.**”

## TIMING

“The adjustment of the **time** or speed of an action so as to achieve the best effect.”

One of the most crucial elements in Jesus’ mission to fulfill the prophecies is the element of **timing**. As shown earlier in this book Jesus knew from the prophecies exactly when the events were to occur in order to fulfill them. This meant that Jesus, in order to execute his plan accordingly, had to make sure he did not get arrested too soon which would counter the **timing** element of the Scriptures. The “betrayal” by Judas, the **time** of the triumphful entry into Jerusalem on “*Solomon’s Foal*” and the arrest, et al, the **timing** of which was all manipulated by Jesus to bring about the **right timing**. The mastery of this aspect of Jesus’ personality is inherent in Bruce.

Once on the spiritual path the natural **timing** of things just falls into place. It takes a lot of faith and a lot of surrender, but the universe provides perfect **timing** to all life's events.

## **JESUS-PAST LIFE-CAUSE**

*Passover Plot* page 99. "**Timing.**"

*The Reappearance of the Christ.* "Right **timing.**"

*Passover Plot* page 106. "...most careful **timing.**"

*Passover Plot* page 160. "Remarkable care for **timing.**"

*Passover Plot* page 132. "Everything had to be **timed.**"

*Passover Plot* page 68. "Careful **timing.**"

## **BRUCE-PRESENT LIFE-EFFECT**

*Sun trine Saturn-* "Bruce has a knack for **doing the right thing at the right time** to achieve the best results." Where does this knack come from?

*Sun trine Pluto-* "Insight into situations that let him know just when and where to act."

Sounds like Jesus to me!

4-12-2020. Herein ends part IV on this Easter Sunday. Doing the "right thing at the right time."
