

## MESSIAH FOR HIRE

### CURRICULUM VITAE(CV); COURSE OF LIFE/LIFE'S COURSE

#### PART TWO

The following sequence was written at the *Federal Detention Center* in Honolulu, Hawaii in 2009 and 2010. The information has been adapted from my first book self published in 2001: *My Past Life As Jesus-An Autobiography of Two Lifetimes*. The reason I was incarcerated is revealed in another book I wrote while detained called *A TRAVIS-TY OF JUSTICE-IN MY OWN DEFENSE-THE BURDEN OF PROOF*. It was just my patterning repeating itself.

In Part One I quoted some of the world's greatest minds about who and what we are.

We are not our bodies. Consider your "self" a magnificent computer created in the "image and likeness" of the Creator. The body is only the "hardware" that houses the vibratory frequencies that makes up the soul which is the "programmed" software.

"In the beginning," before the beginning, the material universe was created. God, the Creator of all that is, had the thought to clone, i.e. re-create itself. The "first born," Christianity has labeled the "Son of God," and Jesus/Yeshua is known as that "son," i.e. for planet Earth. There are innumerable "Sons" for the incomprehensible number of galaxies and solar systems in the universe.

For the sake of keeping the premise of my reincarnation as Jesus somewhat simple, I am limiting these writings to the Milky Way Galaxy and the solar system to which the planet earth calls its home.

The "Son," as Messiah, assigned to this celestial geography is Yeshua/Jesus. We are only dealing with the soul of Jesus, his energetic vibratory makeup, and how the personality and character of Jesus has remained the same from the past lifetime to the present lifetime. The Vedic *Bhagavgad Gita* says it best. "The body changes but the soul remains the same."

If we are to believe Paramahansa Yogananda's words: **"Each man is stamped with his own vibratory signature of his own state of consciousness"** we must ponder those words.

Our soul, like our fingerprints, has a "signature"; a "vibratory signature" created from our "state of consciousness." That "signature" can be tracked if you know how to track it. As Jesus, I deliberately laid down those tracks (for me) to follow in the next (future/present) lifetime as Bruce. Nothing should have changed in my character and personality past to present because my consciousness remains the same lifetime to lifetime.

Dr. Walter Semkiw, famous author on the topic of reincarnation said: **"We are born with a set of frequencies...our energy signature."** Those "frequencies" are made up of the solar, lunar and planetary energies that form our birth horoscope that IS our consciousness from the prior lifetime(s). "We are born" with those frequencies and they form our "energy signature." Paramahansa Yogananda and Dr. Semkiw are saying the same thing.

In 2008, Oprah Winfrey, via skype, introduced the already famous spiritual author Eckhart Tolle to the world. Tolle says: **"Every human being emanates an energy field...vibrating as a particular range of frequencies and thoughts"** which supports what Yogananda and Semkiw are saying.

Author Wynn Free, (*The Reincarnation of Edgar Cayce*) says: **"As a human soul reincarnates from lifetime to lifetime its energetic signature...receives an imprint of exact planetary configuration at the moment of birth."** In other words, when a soul reincarnates its "energetic signature" i.e. the "imprint" of the planetary energies are the same as the prior lifetime. If this is true, supported by Yogananda, Semkiw and Tolle, then Bruce, the reincarnation of Jesus MUST be the exact planetary ("imprint") configuration of Jesus in every way.

Consciousness, as soul, reincarnates from body to body, lifetime to lifetime intact. The linear time between incarnations changes nothing. The 2000 years from the lifetime as Jesus to the lifetime as Bruce did not change one iota of consciousness.

In one of my books I use the analogy of an old safe that has worn out but the contents of the safe are still the same and intact and then put into a new safe in a new bank in a new location. The soul is/are the contents and the old safe is the old worn out flesh body that has reached the limits of its functional obsolescence.

Dr. Deepak Chopra says: “**You will...influence the lives you incarnate into.**” This is what Dr. Chopra is saying. Your consciousness from all your lifetimes will “influence” each and every life you incarnate into. Your energetic vibratory signature from the prior lifetime has created the “imprint” on the new incarnation and will “influence” that incarnation.

It is safe to say that God has a master plan in its intelligent design for humanity, and a blueprint for that **plan** evidenced by the hundreds of prophecies of the coming Messiah/Yeshua/Jesus given to the prophets over a span of 1,500 years and it was up to Jesus to fulfill that **plan** as the arch-typical “Son” of our Milky Way Galaxy and solar system.

*Colossians 1:16-17.* “For by Him all things were created, both in the heavens and on the earth...He is before all things, and in Him all things hold together.”

Since Jesus is the messianic prototype, the following attributes of his character and personality and that of his reincarnation is what all of humanity needs to aspire to in our journey in our return to the kingdom of God. Remember, “we are all messiahs!” We all have been pre-programmed. All we need to do is activate the spark already implanted in our beings. No one is excluded. This is the road map back home.

## **PURPOSE**

The first requirement of a Messiah (you, us) is that he have a purpose. Part II of this Curriculum Vitae draws primarily from two books that the authors focused primarily on defining the character and personality traits of Jesus.

The first book is *The Passover Plot* published in 1965 by the eminent Jewish scholar Dr. Hugh Schoenfield who spent over forty years of his life accurately recreating a personality and character portrait of Jesus.

The second book is *Jesus CEO* published in 1995 by author Laurie Beth Jones. She does not say how many years she spent researching the life of Jesus reconstructing Jesus’ personality and character but the portrait she paints of Jesus, like Dr. Schenfield, is stunning.

The first descriptive word in our Curriculum Vitae of Jesus and his reincarnation, Bruce, is **PURPOSE**.

Webster: “**Purpose** The reason for which something is done; an intended or desired result; determination; resoluteness, to intend; design; resolve intentionally.”

The word purpose is so important in the spiritual makeup of a human being Pastor Rick Warren wrote a book about it called *The Purpose Driven Life*. Without spiritual purpose there can be no spiritual life. It was Jesus’ main purpose to fulfill the prophecies; by doing so he fulfilled his own personal higher purpose, mission and destiny and his purpose for humanity and to God.

For life to be truly fulfilling and meaningful there must be purpose beyond the purely material ones, i.e. to get married, raise a family, have a good job or career, etc. Our true purpose is accomplished through good deeds and loving kindness toward all sentient beings and to become part of the Oneness that is the framework of the universe.

From *Life After Death* by Deepak Chopra. “Ramana couldn’t see what family he would be born into, but he knew his new **purpose**; to show these dreaming humans how to wake up. Why are you alive? What is your overall **purpose**? To what higher values have you offered your allegiance?”

*Jesus CEO* page 20. “Our **purpose** is to deliver the message and make a contribution.”

*Magical Passes* by Carlos Castaneda. 1998 page 27. “...the primary elements of **purpose**...the awakening of **purpose**, the energetic basis of man.”

From *The Third Jesus* by Deepak Chopra. 2008, pp. 148,149. “As with every aspect of the spiritual path, the **purpose** is to overcome separation. In the state of unity that Jesus experienced, every thought brought a response from God. Jesus repeatedly teaches “You are in God and God is in you.””

## **BRUCE-PRESENT LIFE- EFFECT**

Remember, the vibratory energetic signature of Jesus has been reincarnated in the body of Bruce; “the exact planetary configuration” of Jesus.

When Jesus was reborn as Bruce the planet Uranus was in the sign of Taurus (sidereal) which means: “**Tremendous determination and purpose.**” Doesn’t this sound exactly like a description of Jesus based on the above descriptions?

*Neptune trine the ascendant-* “To arouse every individual to use his or her highest values to make the world a better place to live.” This is my **purpose** in this lifetime. It was Jesus’ purpose as well.

*Mars conjunct pluto*- “Bruce will provide a spiritual leadership for improving the affairs of humanity.” This is my **purpose**.

*Neptune trine the ascendant*- “Bruce will demonstrate his spiritual concern for man and give his interpretation of what is needed to improve the quality of life for everyone.” This is my **purpose**.

*Inconjunct Venus to Jupiter*- “To serve the needs of others.” This is exactly what Jesus did. This is my life’s **purpose**.

*Saturn conjunct Pluto*- “To make far reaching and long lasting effects on the environment. Bruce’s ideas and projects will have a transforming effect upon the world.” This is my **purpose**.

When we talk about the soul reincarnating, what are the elements that go with the soul upon death of the old body and taking up a new one? I have discussed this extensively in my books. Personality, individuality and character go with the soul.

What is personality? 1 a. “The quality or state of being a person. 1b. Personal existence. 2a. The condition or fact of relating to a particular person. 2b. The complex of characteristics that distinguishes an individual, nation or group; especially the totality of an individual’s behavioral and emotional characteristics; 2c. A set of distinctive traits and characteristics. 2d. Distinction or excellence of personal and social traits; a person having such quality.”

What is character? “The way someone thinks, feels and behaves: someone’s personality. One of the attributes or features that make up and distinguish an individual...the complex of mental and ethical traits marking and individualizing a person; the main or essential nature especially as strongly marked and serving to distinguish.”

OK. With personality, individuality and character in mind let’s move on to another personality and character trait of Jesus and Bruce. They are both **METHODICAL**.

## **METHODICALLY**

“A procedure, technique or PLANNED way of doing something orderly or systematic arrangement. Methodical, methodically.” On page 64 of *The Passover Plot* Dr. Schoenfield says: “Jesus **proceeds methodically** to carry out certain actions.” This is the

CAUSE. Look carefully at the dictionary definition of method. It is a “procedure” and Dr. Schoenfield says: “Jesus **proceeds methodically.**”

Deepak Chopra says: “Always look for the signs that are left behind that link the two incarnations. **Look for the clues that make up the chain of identity that hasn’t been broken.**” *Saturn was sextile the ascendant* when Jesus reincarnated as Bruce. It means: (Bruce) “**plans methodically.**” This the EFFECT. Do you see the “chain of identity?” Do you see the “signs that are left behind” from the prior lifetime?

What is the discernable difference between Jesus “**proceeds methodically**” and Bruce “**plans methodically**?” Dr. Schoenfield says Jesus “**methodically** set about his preparations.” *Sun sextile Saturn* means Bruce “has **method.**” *Saturn in the 3<sup>rd</sup> house* means Bruce has “**methodicalness** in the thinking process.” The “chain of identity” is crystal clear. The “two incarnations are linked.” Jesus became Bruce.

## ACTION

“The process of acting or the state of being active; an act or deed; actions, behavior, conduct; energetic activity; effect or influence.”

Dr. Schoenfield, in his reconstruction of the personality and character of Jesus made **ACTION** an integral component of Jesus’ modus operandi for getting things accomplished in order to fulfill the prophecies. This strong trait remains rigidly intact from Jesus to Bruce.

“The life you are experiencing now, the one that preceded it, and the one that will follow did not appear out of nowhere. They appeared through a continuous, evolving consciousness-the real you. The soul keeps track of you. Consciousness does not lose track of itself.” <sup>1</sup>

Dr. Schoenfield, in describing Jesus said: “Everything he did was **calculated** to carry out certain **ACTIONS**, a critical element to making it all happen.” (Fulfill the prophecies). This is the cause.

## JESUS-PAST LIFE-CAUSE

*Jesus CEO* page 50. “Jesus takes his emotions into **ACTIONS.**”

*The Third Jesus* page 4. “Jesus’ **ACTIONS** and the **ACTIONS** God wanted performed.”

*Passover Plot* page 184. “The greatest test of all; the test of **ACTIONS.**”

*Jesus CEO.* “Capacity for **ACTION.**”

*Jesus CEO.* “Strength of **ACTION.**”

*Passover Plot* page 44. “Unity to his words and **ACTIONS.**”

*Passover Plot* page 44. “That the **ACTIONS** interpret the words and the words the **ACTIONS.**”

*Jesus CEO* page 131. “Steady in his **ACTIONS.**”

*Passover Plot* page 121. “**ACTION** of Jesus intentional and deliberate.”

*Passover Plot* page 67. “Converted convictions into **ACTIONS.**”

Let’s look at the **EFFECT** of the “unbroken chain” past life to present life; the “evolving consciousness.” Bruce is the **EFFECT**.

## BRUCE-PRESENT LIFE-EFFECT

When Jesus reincarnated as Bruce the *moon was sextile mercury*. This means: “motivated to put his thoughts into **ACTIONS.**”

*Sun trine Saturn:* “When Bruce believes a certain course of **ACTION** to be right he will never swerve therefrom.”

*Saturn sextile Neptune:* “Bruce will lay the foundation for **ACTION** in planning or securing a sympathetic response from people in important positions.”

*Mars conjunct Pluto:* “Tremendous energy and power in **ACTION.**” Ask yourself this question. How could I have “tremendous energy and power in **ACTION**” at birth?

*Sun opposition Neptune:* “Creative inspirational **ACTION.**”

*Mars sextile Uranus:* “Capacity for rapid decisive **ACTION.**” Where did this “capacity” come from?

*Sun trine Mars:* “Bruce must prove himself to himself through **ACTION.**”

“**The soul keeps track of you. Consciousness does not lose track of itself.**” Do you get it? This is all divinely calculated by the Creator. Jesus and Bruce are just playing out the preordained and predestined script. Is it fate?\*

\*1.”The development of events beyond a person’s control, regarded as determined by a supernatural power; *the course of someone’s life*, or the outcome of a particular situation for someone or something seen as beyond their control.” Interesting that this Curriculum Vitae means “course of life.” Do you think I have control of my life’s situation? Hell no. God is in control of my life. To that I have surrendered and for that I have earned freedom of choice and free will.

## CALCULATE

“To determine by reasoning; estimate; to make fit for a purpose.”

This is what Jesus did and what Bruce is programmed to do. Yes, programmed! We will see this dictionary example come alive in the “CONFIDENTLY” heading. Jesus “reasoned” everything out and every **ACTION** was geared towards some specific “purpose.” He sized up every situation carefully and all his “remarks were **CALCULATED** to inspire confidence.”

## JESUS-PAST LIFE-CAUSE

*Passover Plot* page 124. “Carried out a measure **CALCULATED.**”

*Passover Plot* page 64. “**ACTIONS CALCULATED.**”

*Passover Plot* page 131. “A program **CALCULATED** to fulfill...”

*Passover Plot* page 68. “**CALCULATED MOVES.**”

*Passover Plot.* “**CALCULATED** activities.”

*Passover Plot.* “Jesus was **CALCULATING.**”

## CONFIDENTLY

“Certain: sure; sure of oneself.”

To pursue something as outrageous as believing I am the promised chosen Jewish Messiah takes a lot of guts. Hutspa! “Daring or courageous.”

*Passover Plot* page 148. “Many would make fun of Jesus or treat him as a madman...page 106...that what he said sounded more like the language of a madman...page 148...Pontious Pilate was told the man was a criminal..page 151...or possibly a harmless lunatic...talking nonsense...was sure he was dealing with a deluded maniac...page 152...{but} Jesus’ recognition of himself as Messiah designate cannot be attributed to meglomania. He saw himself as the servant...” page 67.

Jesus was absolutely **CONFIDENT** of his identity, and Bruce is absolutely **CONFIDENT** of his identity. Nothing has changed except the times and the geographical location.

“Each man is stamped with his own vibratory signature of his own state of consciousness.” Paramahansa Yogananda.

## **JESUS-PAST LIFE-CAUSE**

*Passover Plot* page 64. “**CONFIDENTLY, CONFIDENT.**”

*Jesus CEO.* “One of the most **CONFIDENT** beings.”

*Jesus CEO* page 190. “Spoke **CONFIDENT** words.”

*Passover Plot* page 180. “Jesus had implicit **CONFIDENCE.**”

*Passover Plot* page 71. “Jesus was in no doubt at all and **sure** about the coming of Elija.”

Jesus had every reason to believe this because John the Baptist was his cousin. They were born six months apart. Elizabeth, the mother of John was the sister to Mary, the mother of Jesus. If the disciples “understood” that John was the reincarnation of Elija it was Jesus who taught them that. *Matthew 17:13*. “Then the disciples understood that he was speaking to them about John the Baptist.”

*Passover Plot* page 106. “Jesus was quite **sure** he would not fail.”

*Passover Plot* page 71. “What he believed about himself was true.”

*Jesus CEO.* “Jesus believed in himself 100%.”

*Passover Plot* page 75. “No doubt in his mind.”

*Passover Plot* page 77. “Moved with assurance.” \*

\*”Positive declaration intended to give CONFIDENCE; freedom from doubt.”

*Passover Plot* page 183. “Positiveness such a feature of his personality.”

## BRUCE-PRESENT LIFE-EFFECT

*Sun trine Mars*- “He has the self **CONFIDENCE**.”

*Sun sextile Uranus*- “Inspires **CONFIDENCE**.”

*Sun trine Mars*- “Great self **CONFIDENCE**.”

*Sun trine Saturn*- “Completely **sure** of himself.” “Jesus was quite **sure** he would not fail.”

*Sun trine Mars*- “Spiritual **self confidence**.” Has the “vibratory signature” deviated one iota Jesus to Bruce?

## LEADING UP TO A PREDETERMINED CONCLUSION

“To decide in advance; to ordain in advance; predestine; to destine in advance; foreordain.”

The prophecies determined the outcome for Jesus, but he did not limit the “predetermined conclusion” to just that lifetime. His “predestined and preordained” “conclusion” was not yet concluded. The crucifixion and alleged death was not the “conclusion.” Jesus was just getting started. The script called for a second act. (“the second coming.”) Jesus knew his project was long term and that he would need to “come again” in another lifetime to finish what he started. This is the **ACTION** of the soul’s intention. *John 14:1-3*.

I have been pre-programmed, so-to- speak, to finish the job I started successfully 2000 years ago. The past lifetime and the hundreds of prophecies fulfilled clearly indicates that the “conclusion was predetermined.” The present lifetime as Bruce is a reflection of that memory. It would not be an easy road for Bruce and it would not happen overnight. It would be over 2,000 years that Jesus would have to wait before he could begin Part II. The “hour” has already been appointed however but only God knows when that “hour” is; i.e. when the world recognizes Bruce as the reincarnation of Jesus.

“We are born with a set of frequencies...our energy signature.” Walter Simkew

## **JESUS-PAST LIFE-CAUSE**

*Passover Plot* page 64. “Leading up to a **predetermined conclusion.**”

*Jesus CEO* page 125. “Leaders do not quit when they suffer a loss.”

Wow. Look at the “energy signature”

## **BRUCE-PRESENT LIFE-EFFECT**

*Sun trine Saturn-* Bruce has “the moral stamina to carry any project **DETERMINED** onto a **successful conclusion** despite delays and obstacles.” Isn’t this the most amazing synchronicity? This is a clear demonstration of the unbroken chain from past life to present life.

## **DECISIVE**

### **SCARCELY A HINT OF INDECISION OR HESITATION**

“Decisive. Settling an issue; producing a definite result.”

“Every human being emanates an energy field...vibrating as a particular range of frequencies and thoughts.” Eckhart Tolle

When Jesus decided it was the appointed time to go for it he went for it. As a result of being sure of his mission and who he was as the “chosen messiah” (no Mr. Trump, you are not the “chosen one.” Sorry!) he was a “just do it” kind of guy because of his higher purpose. There was absolutely no reason not to do what he was doing. He knew the predictions. (prophecies). He knew the timing to the predictions. He knew he would always be at the right place at the right time because he was doing the will of God. So why hesitate or be indecisive?

If Jesus was like that then he should be like that now. The “chain remains unbroken.” When Jesus departed the material dimension there was no indecision as to coming back to the earth plane to finish his “mission.” He did not hesitate in his plan; return as the same person he was before. Same soul but in a new flesh body.

On the other side (after “death) Jesus kept the image of the physical body that he had just inhabited in the material world. The body you inhabit in the astral world is the one you have most identified with in the previous physical incarnation. Here the soul stores up energy for its higher, more evolved desires so that they might be fulfilled on its next visit to the physical plane (the earthly correctional facility) when it inhabits a new body. Jesus made the decision to be the “same Jesus” he was before. *Acts 1:11*.

### ***JESUS-PAST LIFE-CAUSE***

*Passover Plot* page 64. “Scarcely a hint of hesitation or indecision.”

*Passover Plot* page 77. “Did not fumble or hesitate.”

*Passover Plot* page 106. “**Decisive.**”

*Passover Plot* Page 64. “With **decision.**”

*Passover Plot* Page 77. “Did not quest around for what to do or how to begin.”

### **BRUCE-PRESENT LIFE-EFFECT**

*Mars sextile Uranus*: “Once he has determined what he is going to do he acts immediately.”

*Mars sextile Uranus*: “Capacity for rapid **decisive** action.”

*Sun trine Mars*: “**Decisiveness.**”

*Mars in the 3<sup>rd</sup> House:* “He has quick thinking in emergency situations.”

*Mars in the 3<sup>rd</sup> House.* “Make **decisions** quickly.”

## LIKE A CHESS PLAYER

“As a human soul reincarnates from lifetime to lifetime its **energetic signature...receives an imprint of exact planetary configuration at the moment of birth.**” Wynn Free The “energetic signature” of Jesus’ soul entered the body of Bruce as an “imprint” of the “exact planetary configuration” at the time of birth.

If you have ever played a game of chess you know that it is a game of tactics and strategy. There is also an element of planning and calculation. Dr. Schoenfield described Jesus “**like a chess player.**” Chess is a game of move and counter move. It is most amazing that an astrological aspect matches Dr. Schoenfield’s description of what Jesus was like on the playing field; yet, 2,000 years later Jesus has again remained the same person-ality.

## JESUS-PAST LIFE-CAUSE

*Passover Plot* page 64. Jesus was “like a **chess player.**”

## BRUCE-PRESENT LIFE-EFFECT

*Saturn sextile the ascendant:* “As a **chess player.**”

What goes around comes around. As left is to right. It is all cause and effect. Every action has an equal and like reaction. What you sow you reap.

## PLAN-MASTER PLAN

There is only one astrological combination that actually has the code name: “master plan.” The combination of the *Sun in Aries* and the *Moon in Capricorn*. What is very

strange is that before I switched over to the sidereal astrological system in 2008 I was born with the *Sun in Aries* and *Moon in Capricorn* in the Tropical system. From 1974 until 2008 I believed I was born with this aspect. In retrospect I believe it was part of God's plan for me to believe I had this "master plan" energetic vibration because for all those years I acted accordingly. Jesus had the "master plan" and that plan remains uninterrupted as Bruce. Jesus' plan was to fulfill the prophecies. Bruce's plan is to teach how the soul reincarnates and that we never really "die." We just transition from here to there.

Dr. Schoenfield only makes reference to a "master plan" once in his book *The Passover Plot* but he refers to Jesus and his "plan" nearly thirty times. So, in place of "master plan" I am replacing it with just "plan." There is no doubt that a "master plan" remains in effect. It is God's "master plan," not Jesus's and not mine. We are just the actor/servants fulfilling the plan.

*Passover Plot* page 79. “Directed his **planning.**”

*Passover Plot* page 111. “Had his eye in working out his **plans.**”

Jesus CEO page 60. “Love is in control of the **plan.**”

“Enlightened masters who spoke powerfully about love such as Jesus understood that real love is a natural expression of our true self. ‘Love thy neighbor as thyself’ loses its essential power if it is taken as a commandment rather than as a proposal freely offered to consider.

Our true moral obligation, our path, our destiny, our greatest bliss is to endeavor to find and be our true self...if we owe other people anything it is to get to know ourselves better so that we can act from our connected-ness while sharing the gift of our unique perspective. The closer we move to the center of our being, the more we can become aligned with our freedom of choice, of real choice, not of choice based on compulsion or command.” I think this quote was from Joe Martino of *Collective Evolution*.

## BRUCE-PRESENT LIFE-EFFECT

*Saturn sextile ascendant.* “**Plan** methodically.”

*Pluto in the third house.* “Perpetual\* and active **planning**.”

\*“Perpetual-continuing forever; lasting an indefinitely long time; continuing without interruption.” The “chain” is unbroken past life to present life. After 2,000 years this behavioral characteristic remains intact.

*Pluto in the third house.* “The tendency\* to **plan** is so marked...”

\* “Tendency. An inclination toward a particular characteristic or type of behavior.”

“**Plans** successful...**plan**.” I don’t remember which aspect this was.

**“KNOWS HOW TO COUNTER THE MOVES OF HIS OPPONENT AND MAKE THEM SERVE THE ENDS OF HIS DESIGN”** *Passover Plot* page 64

What we need to understand is that in order for Jesus to fulfill **all** the prophecies he needed to constantly banter with those people out to trick him and those out to arrest him. Life was truly a living game of chess and Jesus had to be constantly watching his own back. Besides the move and counter move element of this real life game of life or death, Jesus had to manipulate people and situations to his advantage, and employ others to help him accomplish his goal and plan.

*Passover Plot* pages 121 & 150. “He deliberately maneuvered them into the position reducing them to puppets responding to his control.”

*Passover Plot* page 138. “What Jesus required of his Judean friends had to be carried out to the letter.”

*Passover Plot* page 143. “Move and counter move.”

*Passover Plot* page 132. “Rulers and associates had to perform their functions without realizing they were being used.”

*Passover Plot* page 65. “Knows how to counter the moves....he can discern that certain categories of persons will be involved.”

## **BRUCE-PRESENT LIFE-EFFECT**

*Saturn sextile the ascendant.* “He understands people so well.”

*Sun trine Pluto.* “Insight into situations that let him know just when or where to act.”

*Saturn sextile the ascendant.* “..matching the right person with the proper role..”

## **EFFECTIVE LEADER**

“To go before or with to show the way; to act as a guide; one that leads.”

Spiritual leadership is completely different from political leadership. Political leadership is worldly and spiritual leadership is other worldly. Spiritual leaders are different from religious leaders who are denominational and ritually oriented. Those who worship and pray to Jesus are involved in a form of idol worship.

A person will not achieve God, Christ or cosmic consciousness, transcendence or complete transformation by praying to or worshiping Jesus or other deities. Worship the Source. Worship God directly. The Chinese Oracle *I Ching* says: “To truly **lead** one must truly serve.” To **lead** one must lead by example. Serve your fellow human being with loving kindness, loving awareness, and loving consciousness. That is spiritual leadership; to spiritually guide the way to God consciousness which is Love consciousness.

## **TREMENDOUS ENERGY**

“Extraordinarily great in size, amount or intensity: extraordinary in excellence. The capacity for vigorous activity; an exertion of energy; effort; forcefulness of expression; the capacity to do work; a source of usable power.”

All I know is that I am like the energizer bunny. I keep going and going and going. I don't know any other way than having all this energy. But, the best way for me to explain it is to use the analogy of a category 5 hurricane. The wind velocity and energy is tremendous on the outside but I dwell in the center, the stillness of the eye of the hurricane. To get out of the storm of the illusion and duality of the 3<sup>rd</sup> dimensional (un) reality in which humanity dwells is to get into the calm center. Therein lies the true **tremendous energy**. The center represents the unity and the oneness that is God.

Both Jesus and Bruce exhibit this “tremendous energy.” “The body changed but the soul remained the same.”

“Human consciousness was a substance outside the confines of the body...**a highly ordered energy capable of changing the physical world.**” \*

\**The Lost Symbol-* Dan Brown Page 56, 2009

“...energy makes us free, and that is the absolute truth...there is an inherent amount of energy existing in each one of us...and to augment our inherent energy was the redeployment of that energy...which is a process which consists of transporting from one place to another, energy which already exists within us.” \*

## POWER

“Ability to do or act; strength; might; force; the possession of control over others; authority; a person who possesses authority or influence.”

There is much to be said about **power**. God has all the power and all glory goes to God. To serve is power. To have power over one’s self is the ultimate power. To control ourselves is tremendous power. To love is the most awesome power. Peace is the greatest power. Forgiveness is the kindest power. Compassion is the most heartfelt power. Surrender is the sublimest power. Caring is the tenderest power. Humility is the strongest power. Listening is the most considerate power.

What is your measurement of power?

“When the last word is written on the mind of man, he is then ready to receive unimaginable power. Man’s awesome mental power, and now science is showing us that accessing that power is an actual physical process. Our brains can call forth powers that are quite literally superhuman.” \*

## AUTHORITY

“The power to control, command, or determine; a power or right delegated or given; a person or body of persons in whom **authority** is vested, persuasive force; conviction; authoritative-having the sanction or weight of **authority**; supported by evidence and accepted by most authorities.”

**Authority** in the spiritual realm is God given. Jesus, and his reincarnation Bruce, are but delegates pledged to serve the unity and oneness for the betterment of humankind. This **authority** is taken in the most sublime condition of humility. It is God that inspires awe and veneration. No human is so deserving. God has given us the power and **authority** over ourselves.”

## KNOWING

“To perceive or understand as fact or truth; to have fixed in the mind or memory; to be aware of; to be acquainted or familiar with; to understand from experience; to be able to distinguish or recognize; to know right from wrong; to have knowledge as of fact or truth; to be aware as of some occurrence.”

For me it came from a gut level when God spoke to me in 1973. I intuitively knew I was Jesus in a past life. I not only perceived it I had an acute inner understanding of it. It was a feeling I was familiar with that I was able to recognize and distinguish from delusion. It was a **“knowing”** beyond a hunch or a whimsical notion. It was the truth and God confirmed it.

The memory of this past life became so fixed in my mind the knowing-ness became a permanent part of my conscious awareness. It was not living in the past. The experience jolted me into the eternal present moment and I was electrified. There are some things we just know. This was one of them.

Eckhart Tolle: From his book *A New Earth-Awakening To Your Life's Purpose*. 2003.

“Jesus, as the archtypical human embodying both the pain and the possibility of transcendence representing humanity as the embodiment of consciousness, the presence, the eternal incarnated into the manifested dimension of human form; the descent of the divine into matter, as a person already conditioned by past lives and past memories, a continuing story and movie, our very presence revealing our identity, which is encoded as our own energy field as the cell memory of our cosmic and genetic DNA.”

1. Jesus as the archtypical human representing humanity.
2. The embodiment of consciousness.
3. The presence.
4. The eternal incarnated into the manifested dimension of human form.
5. The descent of the divine into matter. *Psalm 82:6*.
6. A person already conditioned by past lives and past memories.
7. A continuing story and movie.
8. Our very own presence **revealing our identity**.
9. Encoded as our own energy field.
10. As the cell memory.
11. Of our cosmic and genetic DNA.

Two years before Eckhart Tolle published *A New Earth* in 2003 I self published *My Past Life As Jesus-An Autobiography of Two Lifetimes* in 2001. On page 6 I said: “As Jesus I understood and taught the disciples these primary principles of an ordered cosmos. We are all the embodiment of the cosmic order; the cosmos is defined, blueprinted and measured mathematically through human. As one of God’s **archtypical** prototypes, my numbered soul must have a numbered match with the order of the cosmos... Bruce, the reincarnation of Jesus, who is an archtypical standard model of reality.”

2003. Tolle: “Jesus as the **archtypical** human representing humanity.”

2001. Bruce: “As one of God’s **archtypical** prototypes...an **archtypical** standard model of reality.”

## **BRUCE-PRESENT LIFE-EFFECT**

*Sun Trine Pluto*- “He has insight into situations that let him **know** just when and where to act.”

*Saturn conjunct Pluto*- “He **knows** his ideas and projects will have a transforming effect upon the world.”

M. Scott Peck, M.D. from *People of the Lie*. 1983. “All adults who are mentally healthy submit themselves one way or the other to something higher than themselves, be it God or truth or Love or some other ideal. They do what God wants them to do rather than what they would desire. Thy WILL, not mine, be done the God submitted person says. They believe in what is true rather than what they would like to be true.”

## **MAGNETIC**

“A person or thing that attracts; exerting a strong attractive power or charm; the properties of attraction possessed by magnets; the agency producing magnetic phenomena; strong attractive power.”

Jesus completely understood the magnetic pull of the unity once the spiritual radar locked onto its target. The force of God is like a powerful whirlpool that pulls the soul back to the source. That was Jesus’ purpose. He was the magnet employed by the Oneness. He knew the spiritual process of the magnetic power of the will. He declared it. He announced it. He claimed it as his own. Jesus was the “agency producing magnetic phenomena.” As Bruce, nothing has changed. The same magnetic power of Jesus was transferred over at re-birth. The “strong attractive power” is ready to be engaged.

*John 12:32*. “But I, when I am lifted up from the earth, will **draw** all men to myself.”

## WILL

“The faculty of conscious and deliberate action; the power of choosing or deciding; a **strong will**; wish or desire; purpose or determination; the will to succeed; to influence by the power of the will; to exercise the will.”

Anyone who wants to lose weight or kick a habit understands the power of the will. It is an inner power that one needs to take total control of or it will forever have control over you. When God confirmed that I was the reincarnation of Jesus in 1973 God spoke these simple words: “Master it or it will master you.” God was speaking to me of my will.

Either I took control of the situation or the situation would take control of me. I made the conscious and deliberate decision to investigate this revelation and I took immediate action. It was my choice to pursue this path. I was determined to succeed in the endeavor. I willed myself on in the relentless quest for the truth. It became my wish and desire to share this information with humanity. “Not my will but thy will be done.”

*The Reappearance of the Christ*-Alice Bailey-1948. “Reincarnation is the expression of the **will** aspect of the soul and is not the result of any formed decisions. The soul in all forms reincarnates, choosing and building suitable physical, emotional and mental vehicles through which to learn the next needed lessons.”

## TACTICAL

“A method or maneuver to achieve a goal; the science of deploying military forces and maneuvering them in battle.”

“If your goal is to save souls on a global level, i.e. the level of humanity, one must deploy a method to bring it about. Substitute the word “military” for spiritual and add the word spiritual in front of the word “battle.”

A tactic is the science of deploying spiritual forces and maneuver them into spiritual battle. Jesus waged spiritual battle with the negative forces of darkness that inhabits the lower carnal self. Evicting and expelling negative forces is not a simple task; it requires a well planned tactical procedure and you must be well armed to do battle; i.e. the battle of the higher spiritual self over the lower ego self centered negative self is the battle of Armageddon. Jesus offered his spiritual blueprint of the plan to win the battle.
