

Raising Our Vibrational Frequency For World Peace

By Anonymous

What can we do to make ours a more peaceful planet? We have to individually raise our vibratory frequency on a global level. How do we raise our frequency? Simply by loving more. The goal of the soul while on earth is to vibrate to the highest level that can be achieved while in the human flesh body.

The highest vibration is God, Love or Christ Consciousness. In order to get 'there,' which is 'here,' don't look out there for the Kingdom of God for it lies within. If we do not achieve this energetic vibration, we force ourselves to return to earth (or another material dimension) to learn the lessons of love. As the song goes, "All you need is love."

So, we all are just a bunch of bundles of vibrating energy — light or dark. How do we know this? Read what these spiritual teachers, physicists and scientists have said:

Paramahansa Yogananda: "Each (hu)man is stamped with his(her) own vibratory signature of his(her) own state of consciousness..."

Dr. Walter Semkiw: "We are born with a set of frequencies...our energy signature..."

Eckhart Tolle: "Every human being emanates an energy field...vibrating at a particular range of frequencies and thoughts."

Dr. Gary Zukav: "A thought is a form formed out of energy or light that has been shaped by consciousness. There is light and there is shaping of light by consciousness. This is creation."

Wynn Free: "As a human soul reincarnates from lifetime to lifetime its energetic signature...uniquely coded...programs...unique intelligent patternings and archetypes... receives an imprint of exact planetary configuration at the moment of birth."

Dr. Deepak Chopra: "You will...influence the lives you incarnate into."

Rodney Collin: "Form multiplied by its time yields its own unique signature."

Dr. Michael Newton: "Intelligent energy waves create subatomic particles of matter."

Dr. Nikolai Kozyrev: "Time is a form of energy."

Dr. Brian O'Leary: "Mass may not exist at all."

Dr. Paul Davies: “A unified mathematical scheme with an emerging pattern, design, plan, and blueprint and intelligent design.”

A powerful prayer that we all should invoke daily, that will raise the energetic frequency of the planet, is this one: “I am eternally grateful and thankful Lord God for giving me the opportunity to bring peace and love to planet earth.” It is our thoughts that shape reality and the reality we all should want is a world of brotherly love and peace.

I have offered “The Solution to a Permanent and Lasting Peace Between Israel, Palestine and the World” through the Foundation for World Peace.

The Foundation For World Peace* offers insights to peaceful solutions for an embattled planet. In Hawaii we speak of Aloha. Aloha means love and comes from the breath of God. When we come together in the spirit of peace, love, light and understanding, focused on change, we bring about higher conscious awareness, empowerment, betterment and the upliftment of humanity. We can effect positive change to rights, health, resources, environment, land, air and the food we eat. The power of will, attention to intention, and focused, directed spiritual energy, can make the world a better and safer place for our children.
